

FIFTY KILLED, 500 WOUNDED

Reported Result of Rioting
in Santiago.

PEOPLE OPPOSING TAX.

The Police Make Several Hundred Arrests—In Other Cities Anti-Tax Meetings Passed Quietly.

Buenos Ayres, Oct. 25.—A dispatch from Santiago, Chile, says that about 50 persons were killed and 500 wounded, during the recent rioting there. It is hoped that order will be restored today.

Santiago, Chile, Oct. 25.—The disturbances here caused by the opposition of the people to the import tax on Argentine cattle continued all day Monday and did not cease until late that night when a small detachment of troops arrived here and a few shots were fired. The people of Santiago have just witnessed the most shameful occurrences in the city's existence. Almost everything which could be destroyed has been wrecked, including the city lamps, public seats, monuments and windows everywhere. The situation as this despatch is filed is comparatively calm, but the banks and business houses will remain closed. Several hundred arrests have been made. The workmen declare they are not responsible for the rioting which they add was organized by rowdies.

Anti-tax meetings which have been held elsewhere in Chile have passed off quietly. The press criticizes the Government and the local authorities for lack of energy in preventing the disorder. The army manoeuvres have been suspended and the troops are expected back to their quarters here in a short time.

During the rioting yesterday many persons were killed or wounded. The rioters attacked the gas works, but were repulsed. The department has been declared in a state of siege.

TOGO THE REAL HERO.

Tokio's Enthusiasm Runs Riot Over Victorious Jackies.

Tokio, Oct. 25.—Tokio's reception yesterday to officers and men from the combined fleets was a most notable affair. The day was extremely fine, and the public enthusiasm was unparalleled. As the procession moved from the Shimbashi railway station at Ueno park, along the crowded streets, the air was rent with thunderous cheers.

Admiral Togo's carriage was profusely decorated with flowers, and the public feeling toward him was next only in warmth to that shown the Emperor.

BRYAN MEETS TOGO.

Admiral Greatly Pleased by American's Presence at Reception.

Tokio, Oct. 25.—William J. Bryan was present at the reception yesterday in honor of Admiral Togo. The mayor introduced Mr. Bryan to the admiral. An exchange of cordial sentiments followed. The admiral was delighted at the unexpected presence of Mr. Bryan.

It was learned yesterday that Admiral Togo did not anchor once during five months, from the time of the big naval battle of Aug. 10, 1904, till the Russian battleship Sevastopol was torpedoed in the last days of December.

CAN BUILD CANAL BY 1915.

Isham Randolph Declares Americans Can Do the Work.

Washington, Oct. 25.—Isham Randolph, member of the canal advisory board, in a letter to President Carter of the auxiliary district of Chicago, says completion of the Isthmian Canal may reasonably be looked for before 1915. Mr. Randolph declares the work can be done and Americans can do it. Climatic difficulties, he holds, are exaggerated. As to yellow fever, there was only one case on the zone, Mr. Randolph says, while he was there.

French machinery, costing \$30,000,000, now valueless, impedes the whole line, Mr. Randolph says.

The "Wizard of Oz."

Extravaganza when presented as well as it is done in the case of the "Wizard of Oz", which is to be seen at the Barre opera house, Friday, Oct. 27, must always be popular with the great amusement-loving public, which after all seeks for that which requires not too much thought, and which will divert the mind from the troubles of everyday life. That the "Wizard of Oz" is just such an entertainment is well known, and there seems little reason to suppose that theatre-goers will soon tire of the Scarecrow, the Tin Woodman, the Cowardly Lion or the hundred and one features that have made it so well liked by all classes.

A special village meeting will be held in Bellows Falls October 30 for the purpose of raising money to carry on the village government for the remainder of the current year. It is expected that a tax of 10 per cent will be voted.

WOMEN'S NEGLECT SUFFERING THE SURE PENALTY

Health Thus Lost Is Restored by Lydia E. Pinkham's Vegetable Compound.

How many women do you know who are perfectly well and strong? We hear every day the same story over and over again. "I do not feel well; I am so tired all the time!"

Miss Kate McDonald

More than likely you speak the same words yourself, and no doubt you feel far from well. The cause may be easily traced to some derangement of the female organs which manifests itself in depression of spirits, reluctance to go anywhere or do anything, backache, bearing-down pains, flatulency, nervousness, sleeplessness, leucorrhoea.

These symptoms are but warnings that there is danger ahead, and unless headed a life of suffering or a serious operation is the inevitable result.

The never-failing remedy for all these symptoms is Lydia E. Pinkham's Vegetable Compound.

Miss Kate McDonald, of Woodbridge, N. J., writes:

Dear Mrs. Pinkham:

"I think that a woman naturally dislikes to make her troubles known to the public, but restored health has meant so much to me that I cannot help from telling mine for the sake of other suffering women."

"For a long time I suffered untold agony with a uterine trouble and irregularities, which made me a physical wreck, and no one thought I would recover, but Lydia E. Pinkham's Vegetable Compound has entirely cured me, and made me well and strong, and I feel it my duty to tell other suffering women what a splendid medicine it is."

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write to Mrs. Pinkham, Lynn, Mass., for special advice—it is free and always helpful."

MUST READ THE NEWS.

Says Prof. James to Students of Northwestern University.

Chicago, Oct. 25.—Newspapers have been ranked as a text-book at Northwestern University and hereafter students in the American history class of Prof. J. A. James must come to the recitation rooms prepared to answer questions on the news of the day.

In the course of his lectures Prof. James referred to an article which appeared in a morning paper Monday. Upon questioning one of the members of the class he found that the student was not prepared to discuss current news, and an examination of the class showed that but two members had read a morning paper.

"This will never do," said the professor. "Hereafter I shall expect you to have an accurate knowledge of current events as chronicled each day in the newspapers, and I shall consider it fully as important as the daily lessons assigned from the text-books."

BURGLARY HIS RECREATION

Social Favorite of Middletown, N. Y., is in County Jail.

HAD FOOLED THE POLICE

Caught in the Act of Robbing a Dwelling Boos Had Yelled "Stop, Thief!" and Thus Thrown Sleuths Off the Scent.

Middletown, N. Y., Oct. 25.—By the alleged confession of Charles Boos, until a few days ago superintendent of the Wallkill Transit company's lines in Orange county, a spectacular police mystery has been solved. According to the police, he admitted to them Monday that he had robbed one of the largest department stores in the city, besides several residences, in the last few months.

Boos jestingly reminded the police that he himself had raised the hue and cry one night a few weeks ago when a burglar was chased out of the residence of F. P. S. Crane, a wealthy man. He said the police were close on him before he got out of the house, and that he ran ahead of them, shouting:

"Stop, thief! Catch that man!"

This ruse worked so well that Boos resorted to it again a few nights later when he had forced his way into the home of J. L. Pendleton and from which he was frightened by an alarm.

Boos is regarded as a modern social highwayman. He drew a large salary as superintendent of the big transit corporation and lived in good style in apartments on one of the best streets in the city. He was popular in society and dressed in the latest fashion. He was apparently one of the busiest men in town, had no time for anything but his work, and seemed an exemplary man of business.

Great was the amazement when it became known last Friday that Boos had been arrested and locked up. The charge against him was made by officials of the transit company. It was charged that the superintendent had stolen a large quantity of copper wire from the company and sold it to a junk dealer. A subsequent search of Boos' fine apartments revealed plunder for which the police have been looking and which, it was alleged, was taken from a department store and private residences. Confronted with the goods, Boos, it is said, confessed.

Boos' bachelor apartments were the best in town, and, incidentally, he had added to their comfort by tapping the wires of the company from which he drew a large salary and furnishing his rooms with five incandescent lights.

The police learned Monday that Boos has been shipping large boxes of goods to persons in Reading, Pa., and they are convinced he was using this means to dispose of booty.

Boos' parents live in Reading. He was held for the grand jury.

WESTERN AMENITIES.

Railroad Officials Give the Lie to Mayor Rose.

Chicago, Ill., Oct. 25.—A despatch to the Record-Herald from Milwaukee says: Mayor Rose made a sensational charge Monday that those back of the Milwaukee Southern road, which is trying to get an entrance into Milwaukee, had offered to sell the franchise, provided they get one, for \$100,000, and this offer being turned down, they reduced the price to \$15,000. This statement was made to the common council in a message.

The mayor said: "The offer was by the treasurer, S. E. Hall. I do not dare to say to whom it was made, nor to give any details, but if the council wishes to investigate the matter, I stand ready to prove the charge."

To this statement Treasurer Hall came back with the reply: "It's a lie. I throw the charge back in the mayor's teeth. I challenge him to present his proof in public or otherwise."

President H. C. Wood of the company wired from Chicago:

"There is absolutely no truth in the statement that the pending franchise has been offered for sale for \$100,000 or any other sum. We challenge proof of any such statement."

Mayor Rose sticks to his original statement, and says the offer to sell was made within a few days.

WOOD BACK IN MANILA.

Will Be in Command During Gen. Corbin's Absence.

Manila, Oct. 25.—Major General Leonard Wood has arrived here and will assume command of the military department of the Philippines during the absence of Major General Corbin.

The agricultural bank bill is now being discussed by the Philippine commission. The proposed capital of the bank is \$5,000,000 in gold.

AS A PAUPER.

Mary Rogers Will Appeal to U. S. Supreme Court.

Washington, Oct. 25.—Mary, Mabel Rogers under sentence of death in Vermont for murdering her husband, was yesterday granted leave to proceed on her appeal to the supreme court of the United States as a pauper without payment of costs. The record in this case will be presented at public expense.

From Colchester comes a claim of the raising of the largest squash yet reported. This vegetable, which, it is said, is one of natural growth, under only nominal conditions, weighs 134 pounds. It was raised by Arthur Morgan, of Colchester. It required the combined efforts of two men to place the vegetable in position in a Burlington market where it is on exhibition.

Pain in the Head

Is a danger signal, warning you that the brain nerves are exhausted—irritated, and are undergoing an unnatural strain.

Frequent and prolonged attacks of pain weaken the generative power of the nerve cells of the brain, and lead to loss of memory, melancholy, spasms, epilepsy, and frequently insanity.

When the brain nerves are weakened they are unable to supply sufficient nerve force to the nerves that control the lungs, heart, stomach and other organs, and these organs are thus robbed of energy, and unable to meet the demands upon them, and they get sick.

Stop the head pains with Dr. Miles' Anti-Pain Pills, and the influence upon your general health will be greater than you can realize.

"I want to tell you how thankful I am for Dr. Miles' Anti-Pain Pills. From a child I have been subject to sick headache, and never found any lasting relief until I received a sample of Dr. Miles' Anti-Pain Pills while in Geneva six years ago. By taking one it usually throws off my pain, so I can go about my home duties."

GOT \$144,000 TO HELP THE MUTUAL

C. J. Smith Hired to Keep Unfavorable Reports Out of the Newspapers Throughout the Country.

New York, Oct. 25.—Charles J. Smith, a newspaper man, testified yesterday afternoon before the legislative insurance investigating committee that he had been in receipt of \$8,000 a year for eighteen years from the Mutual for protecting the company in newspapers in various parts of the country.

His business, he said, was to counteract by his writings unfavorable influence of certain adverse publications. During the present inquiry, he said, he had sent out much matter, at \$1 a line, in line with this purpose.

Various newspaper despatches of this character were read.

The committee listened earlier in the day to an argument in favor of removing the legal reserve fund restriction which is generally regarded as the policy holders' chief safeguard against disaster in investing in life insurance. The advocate of reserve abandonment was Emory McClintock, the Mutual's actuary, who insisted on the witness stand that if security can be assured in England, as it is, by such a system coupled with strict supervision and publicity, the same result should be attainable in the United States.

Mr. McClintock also declared that in other states than New York evasion of the law demanding a first year premium reserve is common by the insurance of a policy term and a life—and setting aside a reserve only on the alleged short term, which is a trifling sum. State commissioners, he said, winked at this evasion.

No official information was forthcoming as to the date of the appearance as a witness of James Hazen Hyde, but it is understood that the committee will seek to dispose of the Mutual's affairs before passing on to Hyde and the Equitable.

Fortunate Father and Son.

I am as certain as I now live, says Mr. C. E. Bartholomew, Kalkaska, Mich., that Dr. David Kennedy's Favorite Remedy, of Rondout, N. Y., saved my life when I was a victim of that terrible disorder—Bright's disease. My son had a fever sore on his leg; he too used Favorite Remedy and is now well. All druggists, \$1.00; six bottles, \$5.00.

H. G. Lane, of Burlington, has applied for patents on what is termed an automatic tank. The tank can be placed in any stream of water and will supply power to a pump at any distance with the aid of a wire or pulley. The tank is constructed in such a manner that when placed in the proper position in a brook it will work automatically with an up and down motion. With the aid of a wire or pulley attached properly to the tank a pump can be operated at any distance from the stream. This mechanism has been set up on neighboring farms and found to work satisfactorily. The device is intended to aid farmers who are compelled to draw water from brooks or wells. It is claimed that the contrivance will furnish water at practically no expense to the consumer.

BALLAD OF AN EDUCATED OWL.

There once was an owl, a juvenile fowl, Who'd been educated at college. Where he learned each matin most classical Latin

And exulted in his knowledge. He held it a blame, a sin and a shame To depart from the tongue of Minerva, Whose owls, he'd proclaimed, were the first of his name

And devoted their lives to serve her. Now this wise young owl, aristocratic fowl, When in English he deigned to reply, Put his parent to shame when he uttered the same

With a knowing leer in his eye. When the old man called and stormed and bawled The young one replied: "To whom, sir?"

He'd not say "To who?" for that wouldn't do. 'Twas grammatically perfect: "To whom, sir!"

The other young fowls, plain bourgeois fowls, Content with the speech they were getting, Would cry out, "To who?" as all owls should do.

Without any fussing or fretting. But Bubo, the sage, would fly in a rage, His illiterate brothers to chide sirs, Till they caught him one night, by the owl's electric light,

And thrashed him until he near died, sir.

Now the moral is to read, if you care for the creed, Though maybe you'll think it presuming. If I stop you to say, in my commonplace way, That correctness is sometimes assuming.

The infinite split matters nary a bit. When you're talking of deals or what maybe. It's fine to be nice, if you have the price. But it won't buy new shoes for the baby.

DRINK Bars Men from Employment

Every line of business is beginning to shut its doors absolutely to drinking men. Business competition has become so keen that only men of steadfast habits can find employment.

Employers do not want men that are addicted to drink. A drinking man is not in fit condition to handle responsible work. Continual drinking diseases the nerve system. No "will power" can cure; treatment is necessary.

A JAPANESE BRIDE.

Little Nui, Wedded by Proxy Allowed to Land.

From the fairest spot in Nippon, famous alike for the glory of its Shinto temples and the beauty of its women; from the mountains of Nara came Little Nui Fukuda. Of all the Japanese passengers on the big ship Manchuria, which docked last Thursday, Nui was the only one the doctors passed as fit to land.

Nui was naturally eager to come ashore, for on the pier her little brown husband, Fukuda, was waiting impatiently to see the girl he had married.

But that was just the trouble. Nui Fukuda was married, but had never seen her husband. He, in distant California, had looked upon her picture and was pleased; she, in the mountains of
